

DEPARTMENT OF THE NAVY

USS TRUXTUN (DDG 103)
FPO AE 09588-1309

Welcome aboard,

Congratulations on your selection as a member of USS TRUXTUN (DDG 103).

TRUXTUN will be the sixth ship named in honor of Commodore Thomas Truxtun. He commanded one the first ships of the line in the US Navy and stands among our greatest naval heroes. TRUXTUN is the fifty-third ARLEIGH BURKE-class guided missile destroyer to join the US Fleet.

TRUXTUN is the most technologically advanced warship ever built. She will be top of the line of war ships in pursuing, attacking, and vanquishing threats to the United States in the air, maritime, and land domains. Although TRUXTUN is at the top of naval war-fighting technology, her greatest asset will be the Sailors that keep her in tip top shape. You will play a vital role in keeping our fine ship at the top of her game through extensive maintenance and training.

Please contact me at (757)444-1180 or Email me at cmc@ddg103.navy.mil if you have any questions or issues after receipt of orders. A sponsor will be assigned to make your transition as easy as possible and will need to gather important information to ease your transition and ensure you are being properly trained and prepared for your duties in TRUXTUN.

You can look forward to a rewarding and challenging assignment. I look forward to serving with you and meeting you soon.

A handwritten signature in cursive script, reading "P. Brock", is positioned above the typed name.

P. BROCK
Command Master Chief
USS TRUXTUN (DDG 103)
